"The "Flu" Coming Back Are You Prepared?"

PERE is an article about the "Flu."
It says that the general opinion among physicians is that it will return this winter."

"Have they found a cure?"

"No. It seems that at the annual meeting of the American Medical Association, papers were read by physicians who could speak from authority on this subject. There was such a diversity of opinion on the effects of vaccination and innoculation, that these methods cannot be considered a success."

What is a person to do then?"

"Well, statistics show that about three persons out of four are immune to the "Flu" germs. Investigations of a large number of cases makes it clear that this immunity from attack is due to the health-ful condition of the system."

"In some districts 24 persons out of 1000 developed pneumonia from the "Flu." The germs of these allments seem to thrive under similar conditions. If you are tred out and run down you are an easy preto pneumonia germs, and the same applies

to the "Flu" and other germ diseases. The thing to do is to keep fit."

"By living according to the best hygienic laws, giving attention to diet and exercise and keeping the blood pure and rich, for, after all, pure rich blood is the greatest of germicides."

"When your digestive system fails to keep the blood rich there is nothing that will help you so much as Dr. Chase's Never Food. This treatment is composed of the elements which nature provides for the building up of the red blood corpuscles. By its use you are enabled to get your vitality up to high water mark and to keep it there. For this reason it is a wonderful help in the fight against all germs which threaten the human system."

Great Britain has abolished the unemployment dole which has been in force for some time. Too much maningering was the cause. Mr. Rollo may take warning from this old country experience.

The steel strike, according to word from Pittaburg, cost the States \$250,000,000 worth of production. The steel strikers own loss in wages cannot have exceeded \$50,000,000 for the ten weeks. The coal strike will likely go the steel one one better.

Chicago tried to economize on a coal by shutting off its atreet lamps, and the increase in robberies was such that coal had to be disregarded and the lights burned, with the effect of moderating the crime wave. This was evidence that the criminals loved the darkness rather than the light.

Before the war the United States had 300,000 bondholders. Now it has 22,000,000. Notwithstanding this the savings banks are piling up the people's savings and millions of dollars nave been saved by the people invest-ing in thrift and war savings stamps

Co-OPERATION is "the word to co with" these days, and insurance es fies co-operation as does no other ness in the world.

Life insurance, based as it is upon co-operative fort, is nothing but enlightened self-interest and very policyholder shares in its benefits.

Especially is this true in the case of Mutual Insurance companies which are not private enterprises but devoted to the common interest of their members without discrimination of any kind.

Fifty years ago the Mutual Life of Canada was inaugurated and the motive which actuated the originators was not speculation by any means—but mutual protection.

But in serving one another each member has benefited himself, for co-operation is "in the last analysis" calleptaned self-interest. The currenprise has succeeded beyond the wildest dreams of its founders and in war-time and peace the has been of the greatest possible benefit to its members and through them to the citizens of Canada.

The resolve renewed my hope that Bob's neglect would prove a passing mood. I intended it to be my last lesson in his jealousies and silences. As his wife, I would accommodate myself to them, whether they were just or not. If I couldn't keep my marriage happy, I could, at least, keep it dignified.

Before our marriage, Bob's jealousy had flattered me. I took it as a measure of his devotion to me. It was a long the best of the ment of the property of the property of the ment of the property of the pro

PLAN OF THE CLUB

The Plan is Simple: You begin with 1c, 2c, 5c, or 10c and increase your deposit the same amount each week. Or, you can begin with a certain amount, 50c, \$1.00, \$5.00, or any amount, and deposit the same amount each week.

HOW TO JOIN

Look at the different Clubs in table below and select the one you wish to join, the 1c, 2c, 5c, 10c, 50c, \$1.00, \$5.00, or any of the clubs; then come to our Bank with the first weekly payment. We will make you a member of the Club and give you a Christmas Banking Club Book showing the Club

It costs nothing to join and is an easy way(to accumulate money.

YOU CAN BEGIN WITH THE LARGEST PAYMENT FIRST AND DECREASE YOUR PAYMENTS EACH WEEK.

THE REASONS FOR THE CLUBS

To provide a way for those of moderate and even small means to bank their money.

To teach "the saving habit" to those who have never learned it.

To give young folks a practical education about money—by showing them that if they give up the little things they want to-day, they can get the big things later.

To give you a 'bank connection' and show you how our bank can be of service to you.

WHO GETS THE MONEY YOU EARN?

Money epent is money gone—Money Banked is money SAVED.

It isn't the money you make that counts, but the money you save, and there is no better way courie a bank account than by joining our Christmas Banking Club.

Ask any wealthy man how he "got his start'"—he will tell you that he saved and banked

his money.

Get your start. Get itsto-day. Come in and join our Christmas Banking Club.

Carpentier Gets \$25,000 Win, Lose Or Draw

Paris, Nov. 29.—Georges Garpensier will have a powerful ally fighting for him when he faces Joe Beckett at Holborn Stadium on Dec. 4—the rate of exchange. Carpensier will receive 55,000, win, lose or draw, according to unefficial reports. At the normal rate of exchange this would mean that the French champion would receive about 125,000 francs, but with the exchange rate as it is at present, running at about forty france to the pound, Carpentier's chare will amount to almost 200,000 france.
